GLEN MORAY Elgin Classic

The ELGIN CLASSIC COLLECTION is a perfect marriage between innovation and heritage.

Experimenting with a range of wine casks during the maturation process has given us great insight into how the characteristics of GLEN MORAY interact with different styles of wine from different regions, from Chardonnay to Port wine.

Although the more traditional bourbon casks are still predominantly used, this innovative streak has produced unique expressions with a breadth of flavour that is simply unrivalled.

Alongside these wine cask varieties, GLEN MORAY's intense and subtly-smoked expression of the Classic Single Malt, GLEN MORAY Peated Single Malt, completes the range.

Entre nous, c'est DILLON !

It all started in 1779, in Martinique, when Count Arthur DILLON, an army general and hero in the American war of independence, settled on the island. The DILLON plantation (which became the DILLON distillery), was created on the location of an old sugar refinery dating back to 1690. It weathered centuries and survived a tricky climate, including fierce cyclones.

Nowadays, rums A.O.C. MARTINIQUE DILLON are recognized all over the world for their exceptional quality and are regularly recognised for their high standards during prestigious international competitions (such as the Agricultural Competitive examination of Paris).

RUM A.O.C.

J. BALLY

Prestige of Tradition

J.BALLY was one of the first distilleries in La Martinique to produce "Agricole" rum from pure sugar cane.

Inspired by traditional production methods normally employed to make Cognac, the founder of the company, Jacques BALLY, had the brainwave as long ago as 1917 to age his rums in oak casks.

This slow aging in wood, characteristics of JBALLY rums, gives them fine incomparable aromas which time alone can bring.

Grand Cru "Agricole" rums

At the foot of the Mount Pelée volcano in Martinique are the island's most beautiful and ancient plantations: the DEPAZ plantations.

Since 1651, the DEPAZ distillery has produced great "Agricole" rums: white rum, but also golden rum and old rums.

They are typical of the finesse expected from top-grade distilled spirits.

In 1902, Mount Pelée delivered a devastating volcanic eruption which impassioned Victor DEPAZ, the sole surviving family member, to ultimately return to the Estate in 1917 to successfully rebuild the DEPAZ Chateau and the agricultural distillery.

It's these volcanic ashes that today continue to fuel the rich development and production of the best canes that permeate DEPAZ with its 'explosive' taste and character.
